

CARGO & WEAPONS ELEVATOR

**The First to
Incorporate a
Shock Qualified
PLC Elevator
Control System on
a Navy Standard
Elevator Design**

CARGO / WEAPONS

Jered has supplied cargo and weapons elevators for over half the US Naval fleet including the LPD-17 San Antonio class, AE, AOR, AKA, LPH, AFS, CVA, LHA, AS, CGN, LPD and CVN 68-79. Hoist weights range from 4,800 to 43,000 pounds (including platform).

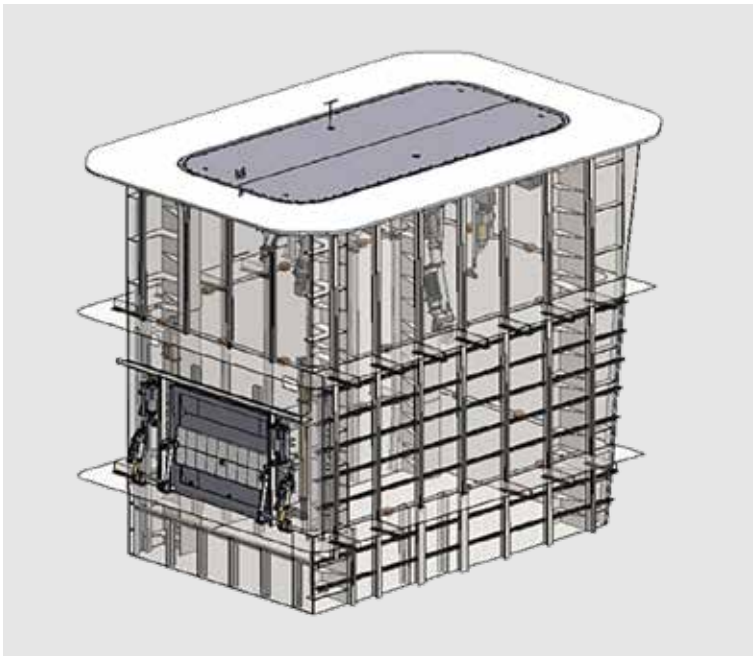

KEY BENEFITS

- Reduces shipyard installation labor, time and interference with other activities
- Ability to install elevators early in process to enable further shipbuilding efficiencies
- Solves troublesome alignment challenges and resulting operational problems
- Modular shipping configuration, eliminates “erector set” of loose parts
- Utilizes Jered designed electric door actuators in lieu of hydraulic

ELEVATOR TYPES

- Ammunition
- Close In Weapons System
- Dumbwaiter
- In Deck Aircraft
- Medevac
- Pallet
- Personnel
- Side Deck Aircraft
- Stores
- Vertical Package Conveyor
