

STEERING GEAR SYSTEMS

Proven Reliability
for Naval Operations

JERED has supplied steering gear for most classes of US Navy ships and numerous foreign navy vessels, ensuring critical safety and operational reliability.

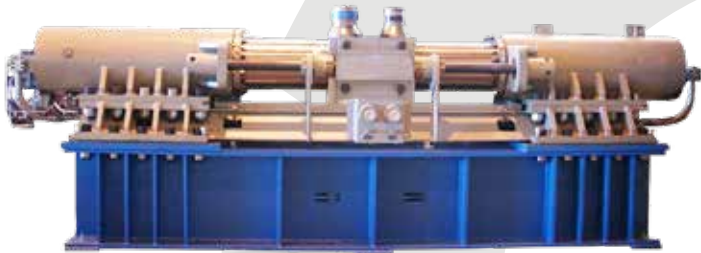

STEERING GEAR SYSTEMS

Unmatched Performance

Our hydraulic ram-type steering gear is trusted by the US surface combatant fleet for its proven reliability and multi-layered fail-safe operation. Available in single or dual rudder-tiller configurations, this system meets the demanding needs of modern naval vessels.

KEY BENEFITS

- High Torque and Thrust Capability
- Multi-layered Fail-safe Operation
- High Reliability
- Remote Operation
- Patented Mechanical Differential Feedback Control
