

LIGHTWEIGHT NAVAL CLOSURE SYSTEMS

KEY CHARACTERISTICS

- Lightweight
- Customizable
- Modular
- Sustainable
- Eco-Friendly

OPTIONAL FEATURES

- Watertight
- Gas tight
- Weatherproof
- Fire Rated
- Shock Rated
- Custom Colors

LIGHTWEIGHT NAVAL CLOSURE SYSTEMS

- Up to 40% weight savings compared to comparable market products
- Eliminates the need for multiple configurations on board vessels
- Reduces both NRE and through-life costs
- Interchangeable accessories and configuration options reduce spare parts inventory and cost

OPTIONS INCLUDE

- Personnel, Dead Light, Fixed Light, No Light, or Fish-eye Viewer options without the need for custom panels.
- Standard options available to meet air test requirements
- Changing the handing of the closure from L/R to R/L is quick and easy by repositioning the hinge and handle components while the closure remains in place.
- Integrated single-point mechanism enables easy handle repositioning
- Surface has high resistance to wear, scratching, abrasion, or cutting - eliminating the need for painting

COMFIRE

jered
